

## 24 Hours of Reality

On November 13, the planet is coming together for 24 Hours of Reality and Live Earth: The World Is Watching, a global day of climate action and music hosted by former US Vice President and Climate Reality Chairman and Founder Al Gore.

The program will invite the millions watching to speak up for a strong climate agreement in Paris through an online petition and showcase the progress happening in clean energy and other solutions all around the world. This event will highlight success stories, climate impacts, and activists and communities working together in one of eight regions critical to an agreement in Paris. The broadcast will start and end with segments broadcast live from Paris, the site of the upcoming UN climate talks.

Starting at 12pm on Friday, November 13th (and ending whenever) we'll be streaming this event live on a big screen at the Iona House at Calusa Nature Center & Planetarium, 3450 Ortiz Ave. Fort Myers, FL 33905

Come meet some new people, eat some good food (bring something to share if you feel so inclined) and learn the latest about climate change, what's going on with it and what you can do to help.

Join us on Saturday November 14th at 4pm at the Planetarium for a Climate Reality Project Presentation on climate change. You will learn what is happening NOW and what the future holds. Climate change IS real and we must act now so PLEASE JOIN US! All donations from this event will go to Calusa Nature Center & Planetarium. Visit our website (<http://bit.ly/sccgurl>) or Facebook page ( <http://bit.ly/sccgfb> ) for upcoming details and updates on this event.
