

Ed, Ranger of the Month

January 2017

Calusa Waterkeeper Ranger Ed Ottenthal is our January Ranger of the Month. As a resident of St. James City, Ed spends lots of time on Matlacha Pass and south Pine Island Sound area.

His usual motivation is as an angler but Ed is also a keen observer with lots of experience on the water.

Ed spent a total of 63 hours on the water in January looking for water quality related events such as fish kills, algae blooms or wildlife problems. The good news is that he did not observe any of the problems our Calusa Waterkeeper Rangers are trained to look for. However, he will continue as our "eyes on the water" in the St. James and Matlacha area.

Congratulations and THANK YOU Ed!
