The 6th University of Florida Water Institute Symposium February 6-7, 2018 J. Wayne Reitz Union, University of Florida Campus Gainesville, Florida

[Register Online](#)

We invite you to participate in the 6th biennial UF Water Institute Symposium. We are pleased to announce that **Sandra Postel, Director of the Independent Global Water Policy Project** will be the Keynote Speaker. Sandra Postel lectures, writes and consults on global water issues. In 2010 she was appointed Freshwater Fellow of the National Geographic Society. Sandra's new book, *Replenish: The Virtuous Cycle of Water and Prosperity*, will be released in October 2017.

The Symposium brings together individuals from a broad range of disciplines and organizations to explore water issues from multiple perspectives. The 2018 Symposium will focus on current water use, conservation, restoration, and adaptation efforts and challenges while envisioning new ways of sustaining our water systems. Innovative science, technology, cultural, policy, and management solutions will be explored through presentations, poster sessions and panels in the following areas:

- **Drivers** of social, hydrologic, ecologic and economic change
- **Impacts** to coastal, surface water, spring and aquifer systems
- **Tradeoffs** among water use, conservation, restoration and adaptation
- **Solutions** through science, technology, cultural, policy and management approaches

Student poster authors are eligible to compete for "Best Poster" awards based on the quality of the abstract, poster and discussion. Three poster winners will receive prizes of \$1,000 each to be used as funding to support future participation at a national conference.

Dates of Interest:

*Call for Abstracts	CLOSED
*Abstract submission Deadline	CLOSED
*On-Line Registration Opens	November 14, 2017
*Early Registration Deadline	January 7, 2018
*Final Registration Deadline	January 19, 2018
